

It's
Cozimax,
take it.

2023

✓ RESPONSIBLE
PRODUCTION

✓ SUSTAINABLE
PRODUCTS

Cozimax has the certification:

FSC® - Forest Stewardship Council®

The **FSC®** certification is the most recognized in the world and is present in more than 75 countries, it certifies the responsible production of forest products, allowing consumers to make conscious purchasing decisions, benefiting people and the environment.

Established in 1998

Located in the city of Mirassol, in the interior of São Paulo, Cozimax develops products for kitchen, bathroom and laundry, in steel and in MDP/MDF, in addition to options for sinks in ceramic and cultured marble; porcelain countertops; wall niches in plastic, cultured marble and porcelain tiles; in addition to mirrors with models ranging from the most classic to the most current designs.

In the market for 25 years, Cozimax has a manufacturing plant with more than 55m², where it centralizes the development and production of all the items it offers to the market. The company's commitment to delivering products and services of a superior standard makes it present in more than 7,000 points of sale in Brazil alone, in addition to being present in South and Central America and the USA.

Our mission is to develop, produce and sell products with innovation and excellence in quality, in order to exceed the expectations of our partners and their customers.

are in more than

500.000
new homes every year

Steel Furniture

One of the brand's main differentials is the quality of the processes and raw materials used; the electrogalvanized steel is more resistant against rust and much more durable, in addition the phosphating and electrostatic painting guarantee not only an impeccable finish, but also greater protection against impacts and extreme climates (effects of the sun, heat, humidity).

-  **Rust resistant**
-  **Does not propagate flames**
-  **Termite free**
-  **Protected against mildew**
-  **More durable**

It's
Cozimax,
take it.

PEOPLE

It is impossible to talk about Cozimax without mentioning its management based on people's well-being and quality of life. Human development through professional and personal improvement is one of the main values of the company, which recognizes and encourages the practice of various activities, whether physical, intellectual or social. Thus, the day-to-day inside the factory has differentiated care, offering its employees spaces for leisure, rest and activities assisted by professionals. It also offers incentives for study and qualification, in addition to various courses and training through our Corporate University.

Valuing the work and dedication of each of the more than 450 direct employees, in addition to the consultants who are present in all regions of the country, is fundamental to achieving results. Our constant search for excellence in service, in the quality of our products and in the delivery of innovation is always focused on bringing the best to you, our partner, in order to provide you with high turnover, profitability and security.

By thinking of people beyond its collaborators and partners, Cozimax supports some institutions that value life, health and human dignity and contributes to a better society.

To be a citizen is to know about our rights, but also to take action. It's believing that together we can build places where there are principles and values that unite the entire community.

With the aim of encompassing the various social, sports and cultural activities that were already offered by the company to the entire community of Mirassol-SP and surroundings, in addition to expanding its attention nationally, the Cozimax Institute was created. Its mission is to promote actions, events and projects for different age groups based on three pillars: **education**, **sport** and **citizenship**.

Now, through the formalization of the Institute, we can formalize partnerships with various government agencies, such as education departments, to carry out even more projects and actions. We can also confederate our athletes by providing greater support in their careers.
